

# Challeng'ICAM TPE 2010

## Nantes

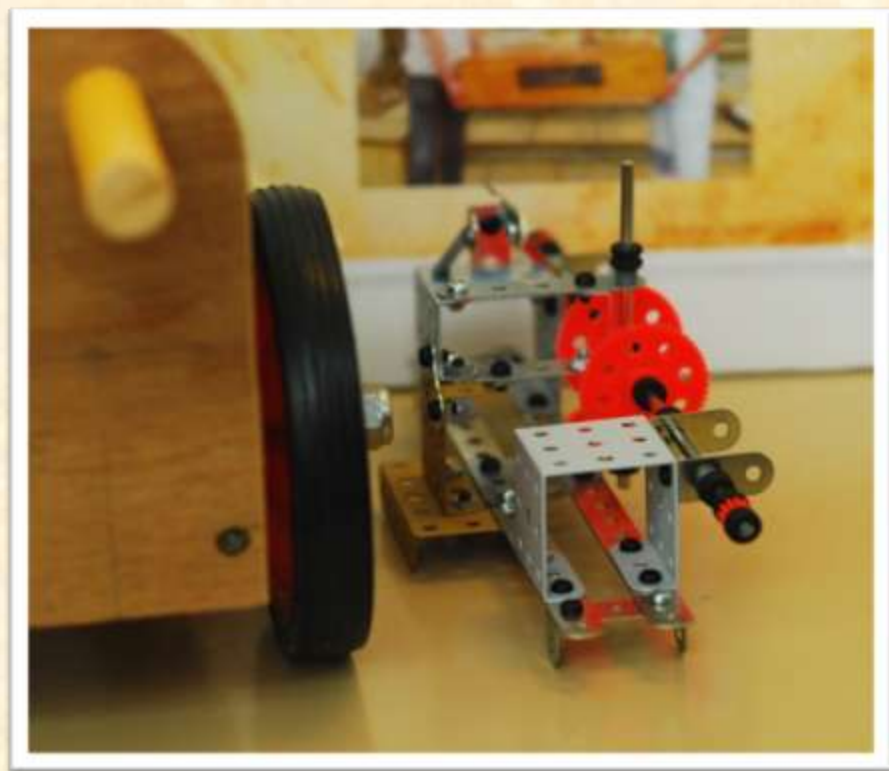

Quelques plans pris au vol,  
Étranges reflets d'une science-fée  
Qui joue aux Playmobil, construit des ponts,  
mélange des substances et explore l'imaginaire.

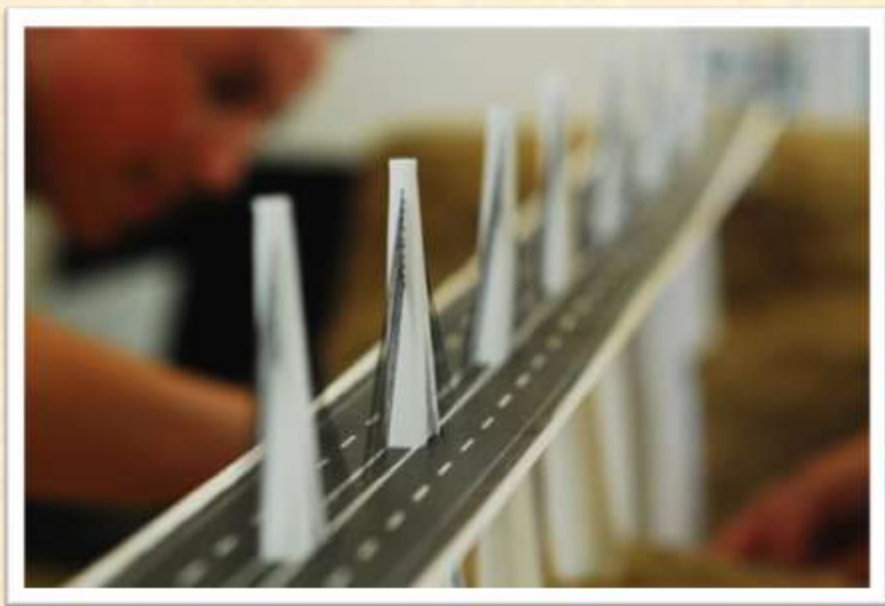

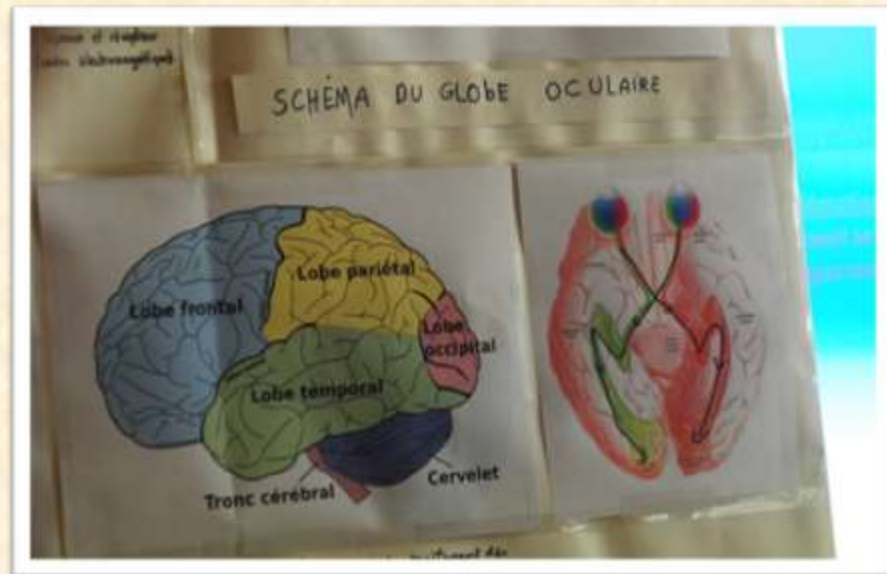

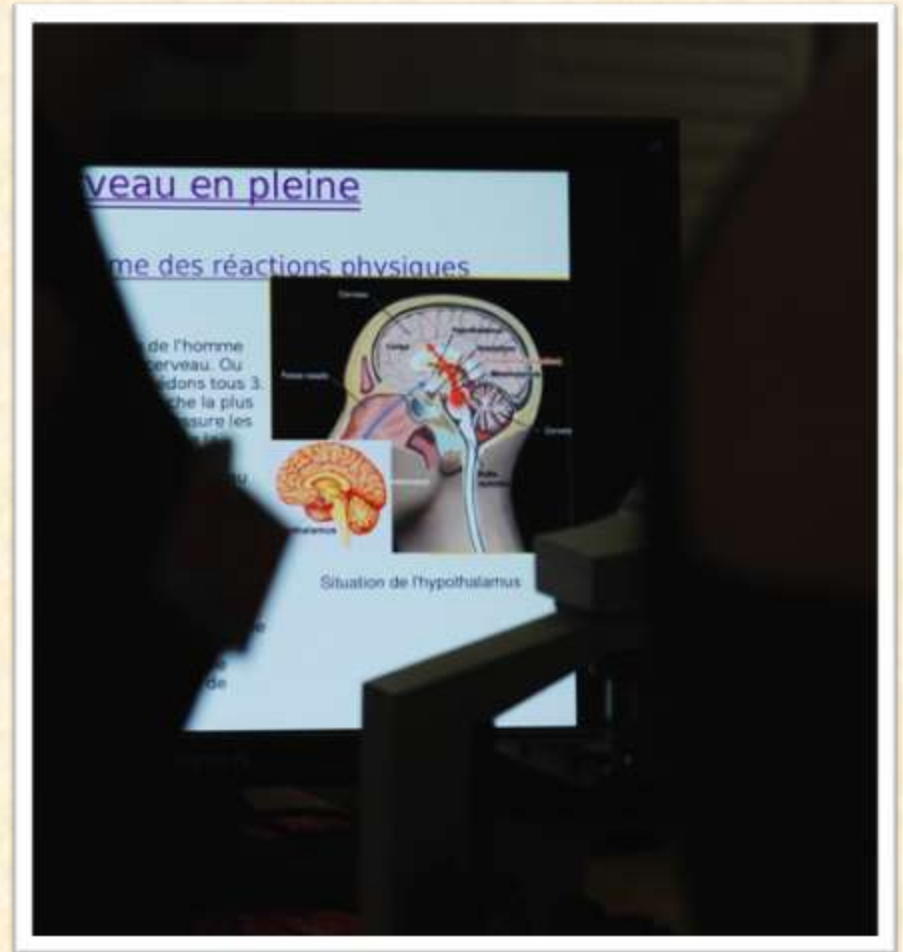

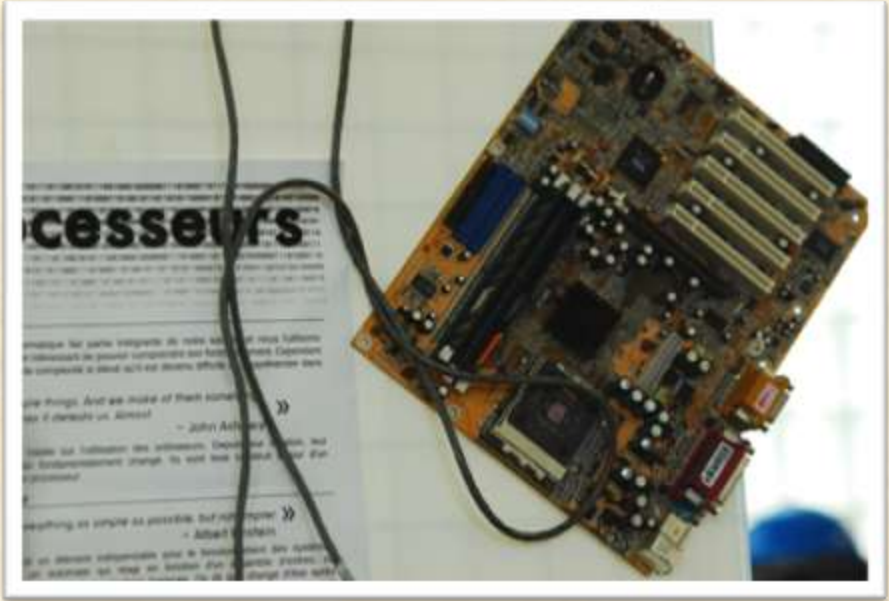

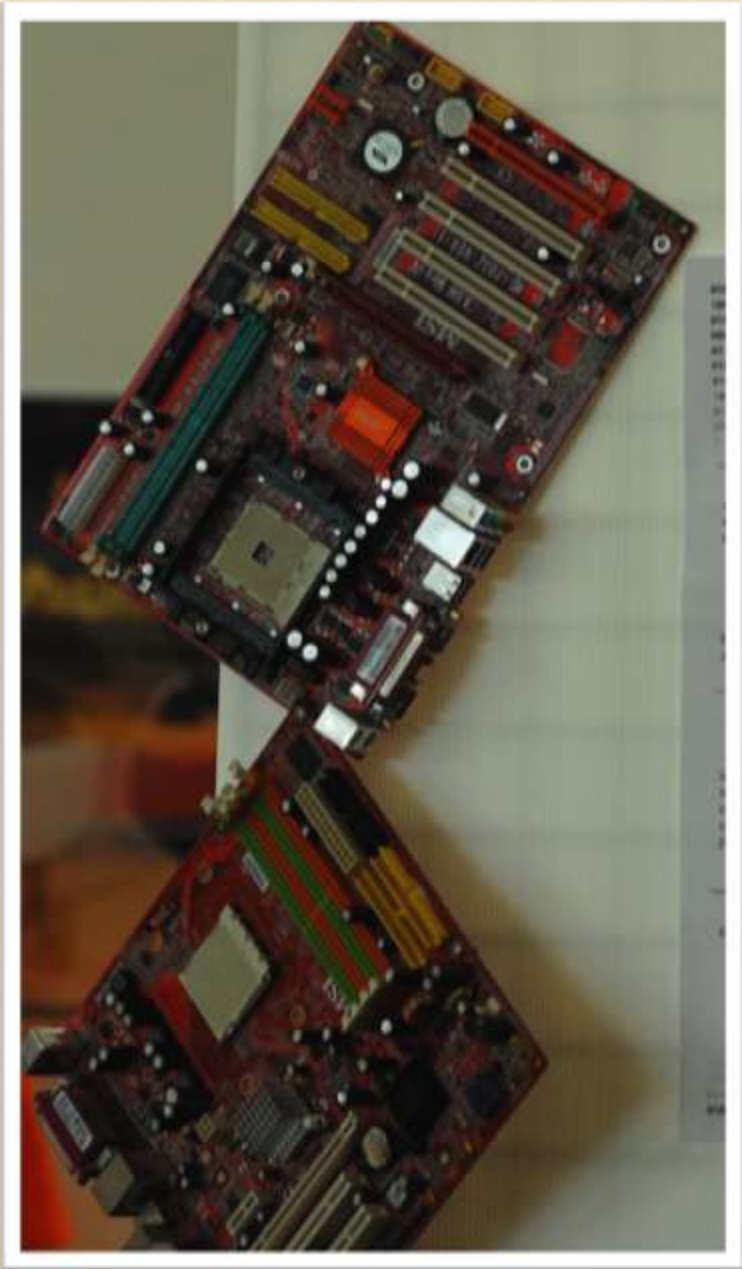

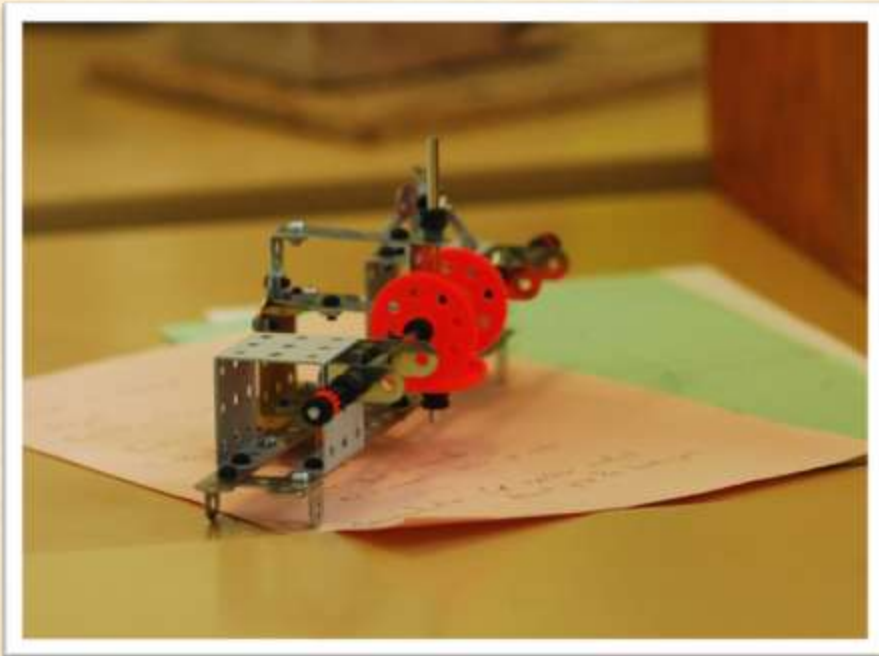

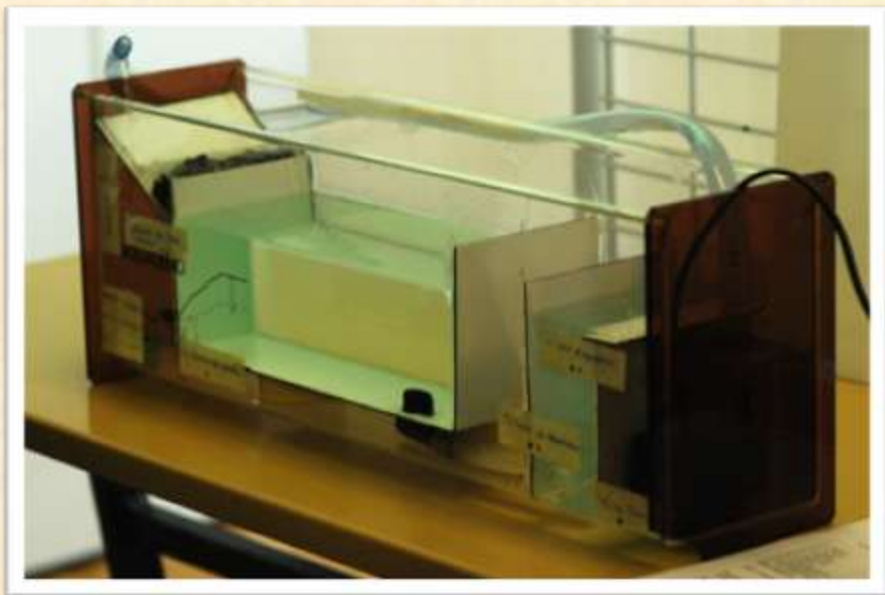

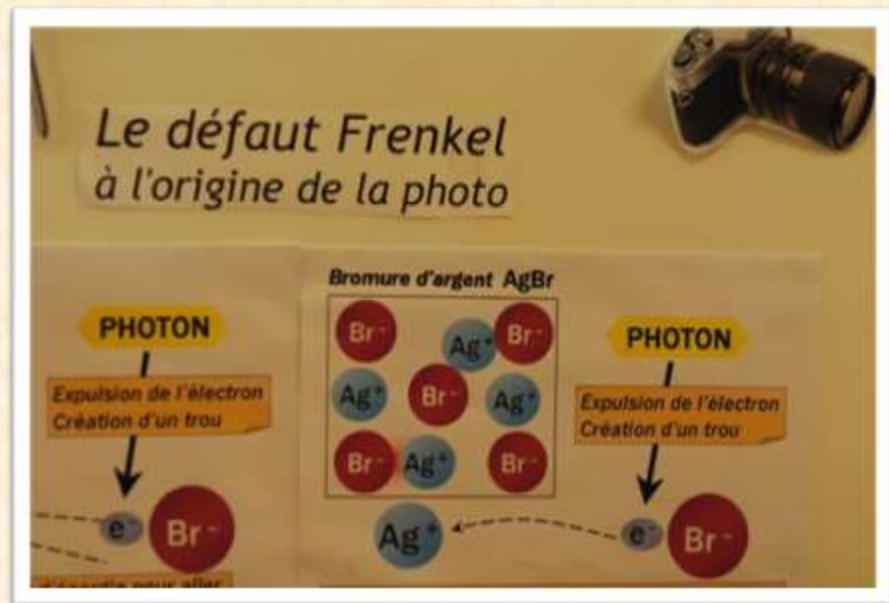

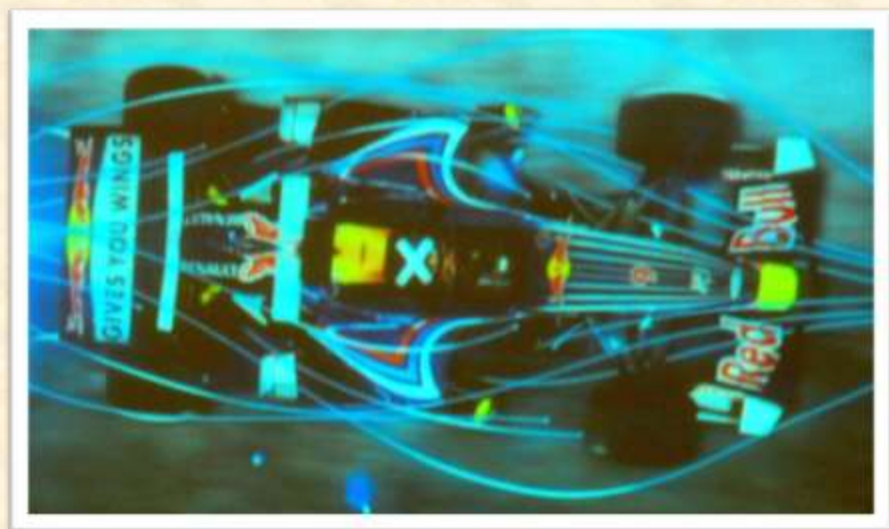

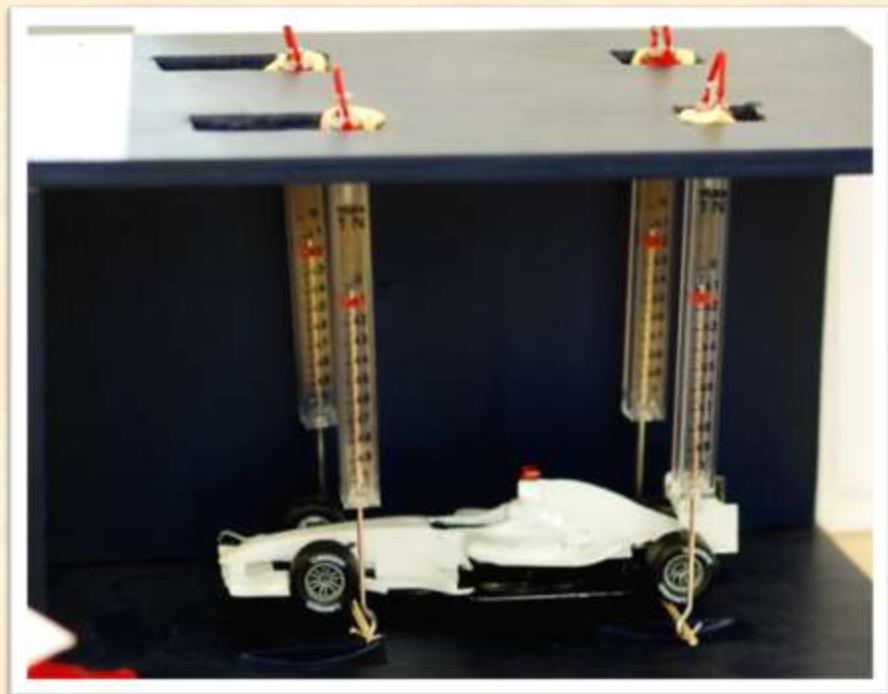

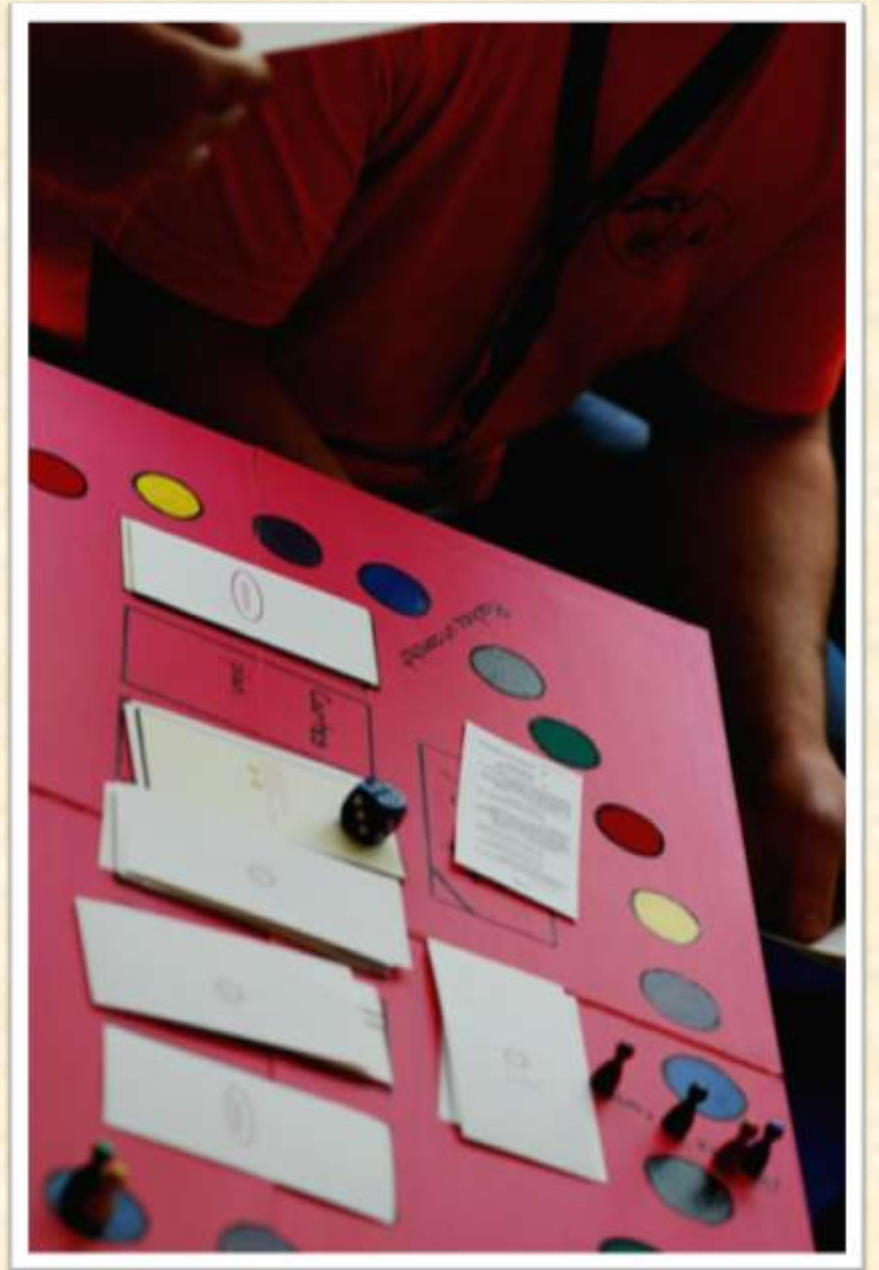

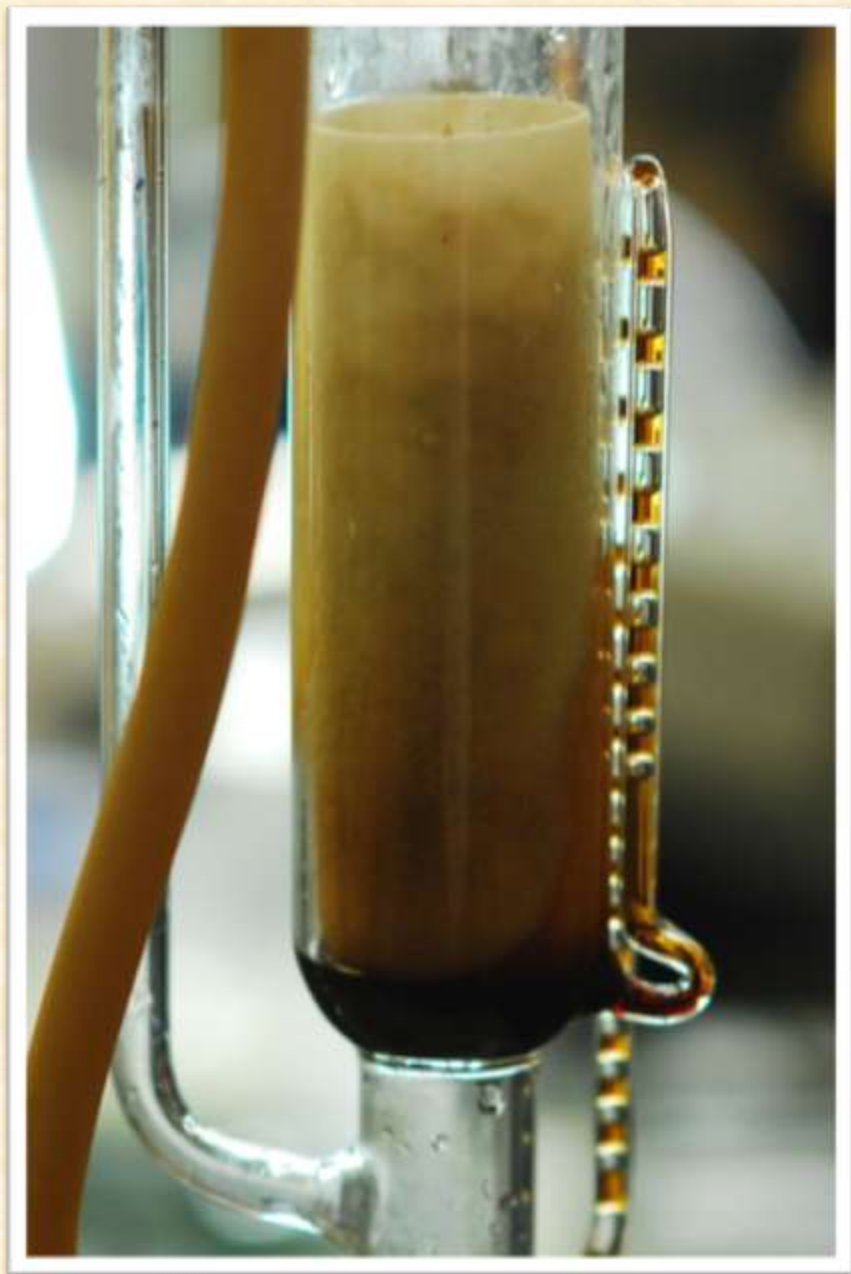

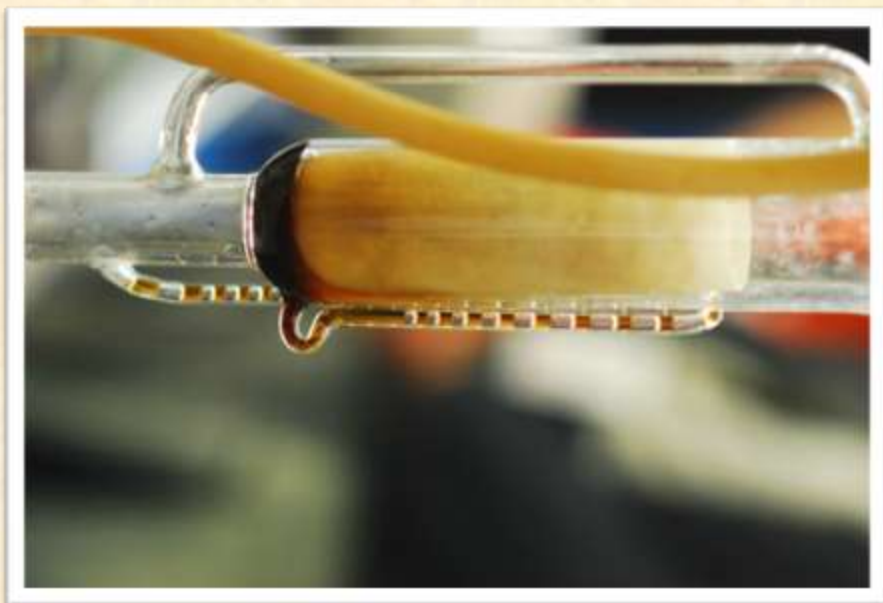

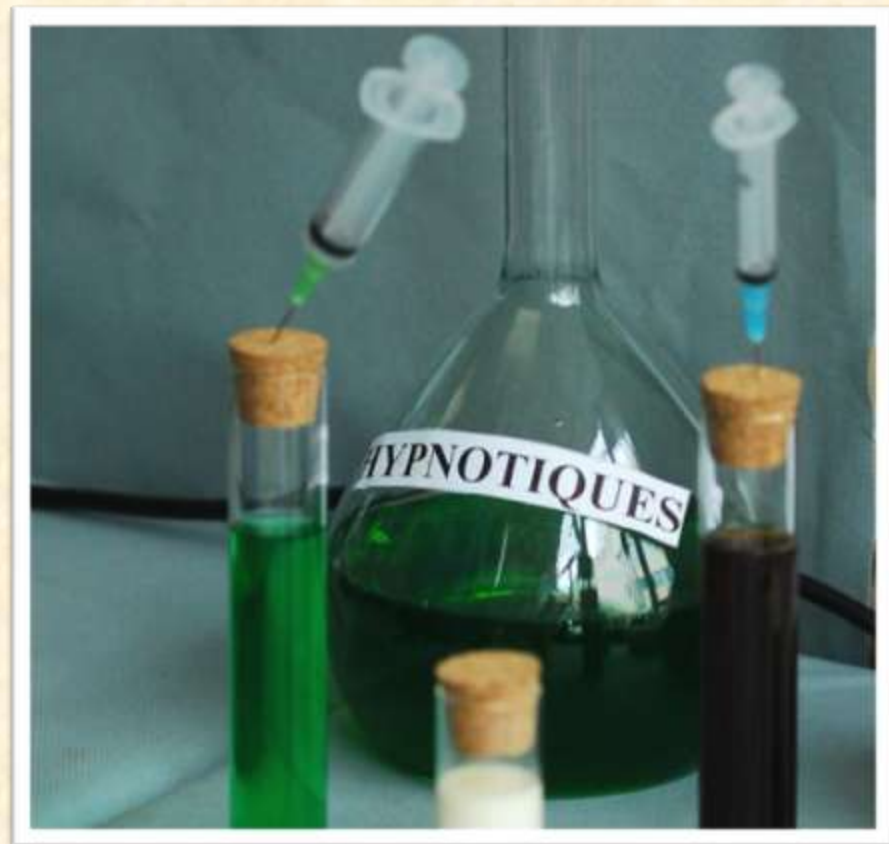

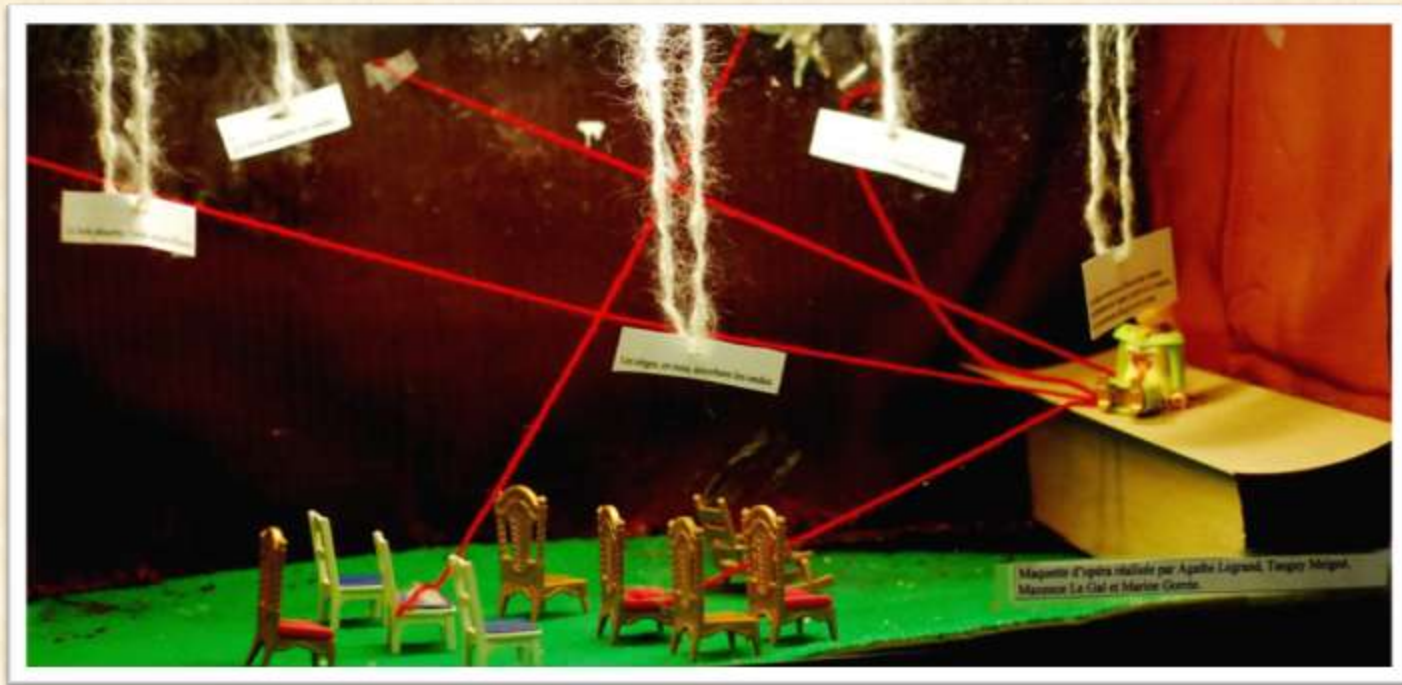

En définitive, le challeng'ICAM , c'est un peu comme au théâtre, avec une infinité d'acteurs, une scénographie bien orchestrée, et une multitude de détails qui nous racontent la vie comme elle est, avec une pincée de science, beaucoup d'imaginaire et d'ingénieux décors.

Merci à tous ceux qui permettent cet évènement si singulier !!!!
